LEADERS					
Aluminium in World Trade ..	49-50	Casting (Continuous) Machine for Copper Billet and Slab Production ..	101-102	Electronic Valve and Tube Manufacture. Interesting Uses of Gas at Mullard Plants ..	153-156
Co-operation in Lead and Zinc ..	143-144	Casting Dressing Shop for Pump Manufacturer, New ..	105	Electroplate, A Preliminary Study of the Relationship Between Tin Coating Grain Size of, and Flow-Brightening Conditions. By C. J. Thwaites ..	113-121
European Steel Trends ..	191-192	Chrome-Nickel Steels (18-2), The Effect of Composition and Structural Condition on the Resistance of, to Electrochemical Attack ..	107-112	Enamelling—Aluminium. By L. Lister and A. W. Brace ..	61-64, 81
Nickel Outlook ..	99-100	Coil Spring Research ..	157-160		
Steel Prospects ..	1-2	Coin Manufacture, Mechanisation in. G.E.C. Vibrating Equipment Installed at the Mint ..	275-276	F	
Training of Metallurgists ..	235-236	Cold Rolling Aluminium Strip, Sendzimir Mill for. Million Pound Installation at Birmetals' Woodgate Works ..	213-216	Ferritic Steel at 650° C., The Effect of Protective Coatings on the Properties of. By K. W. Mitchell, H. King and E. A. Brandes ..	15-23
ARTICLES					
A					
Aluminium and its Alloys in 1959. Some Aspects of Research and Technical Progress Reported. By E. Elliott ..	65-69, 123-132	Composition and Structural Condition, The Effect of, on the Resistance of 18-2 Chrome-Nickel Steels to Electrochemical Attack ..	107-112	Flow-Brightening Conditions, A Preliminary Study of the Relationship Between Tin Coating Grain Size of Electroplate and. By C. J. Thwaites ..	113-121
Aluminium at Sub-Zero Temperature. Symposium Organised by Northern Aluminium ..	217	Conductors (Aluminium), Resistivity of ..	106	Forge Development Scheme Progress ..	24
Aluminium Bronze Fabrications. Welding Problems Overcome ..	83-84	Conformation (Surface) of Metals Under High Nominal Contact Pressures. By L. H. Butler ..	167-174	Forgings (Carbine Barrel), Automatic Hardening and Tempering of ..	32-33
Aluminium Conductors, Resistivity of ..	106	Contact Pressures, Surface Conformation of Metals Under High Nominal. By L. H. Butler ..	167-174	Foundry Goggles, Plastic ..	26
Aluminium, Enamelling. By L. Lister and A. W. Brace ..	61-64, 81	Continuous Casting Machine for Copper Billet and Slab Production ..	101-102	Foundry (Mechanised) in North Wales ..	269-271
Aluminium, Recent Advances in Joining. By G. W. Eldridge ..	55-60	Copper Alloy Sintered Compacts, The Effect of Internal Oxidation on Some Properties of. By R. H. Seeborn and J. W. Martin ..	163-166	Furnace Installations, Recent Heat Treatment ..	247-268
Aluminium-Silicon Alloys. Hypereutectic. A Review of Published Information. By A. P. Bates ..	70-78	Copper Billet and Slab Production ..	101-102	Furnaces (Electric Arc Steel), Britain's Largest ..	103-104
Aluminium Strip, Sendzimir Mill for Cold Rolling. Million Pound Installation at Birmetals' Woodgate Works ..	213-216	Copper Rod, Automatic Rolling of. B.I.C.C.'s New Mill Opened by the President of the Board of Trade ..	241-245	G	
Analysts (Co-operating), Triennial Meeting of. Bureau of Analysed Samples, Ltd. ..	286	Creep Strength of some High Temperature Alloys at 1050°-1200° C. By H. C. Child, A. B. Collier and C. F. West ..	51-54	G.E.C. Vibrating Equipment Installed at the Mint. Mechanisation in Coin Manufacture ..	275-276
Annual Reports, Some Recent. B.I.S.F., D.S.I.R., N.P.L. ..	273-274	D		Glass, Sintering under. By D. Yarnon and M. Argyle ..	239-240
Arc (Electric) Steel Furnaces, Britain's Largest ..	103-104	Department of Scientific and Industrial Research's Annual Report ..	273-274	Goggles, Foundry (Plastic) ..	26
Automatic Hardening and Tempering of Carbine Barrel Forgings ..	32-33	Dowson & Mason's Golden Jubilee ..	34	Grain Size (Tin Coating) of Electroplate and Flow-Brightening Conditions, A Preliminary Study of the Relationship Between. By C. J. Thwaites ..	113-121
Automatic Heat Treatment of Bearing Rollers ..	122	Dressing (Casting) Shop for Pump Manufacturer ..	105	H	
Automatic Rolling of Copper Rod. B.I.C.C.'s New Mill Opened by the President of the Board of Trade ..	241-245	E		Hardening and Tempering (Automatic) of Carbine Barrel Forgings ..	32-33
B					
Barrel Forgings (Carbine), Automatic Hardening and Tempering of ..	32-33	Effluent Treatment Plant at Wilmot-Breeden, Ltd., Bridgewater. By K. G. Robinson ..	3-5	Heat Exchangers in Nuclear Power Stations, Some Characteristics of Integron Mild Steel Tubing for. By F. E. Asbury and L. H. Toft ..	193-200
Bearing Rollers, Automatic Heat Treatment of ..	122	Electric Arc Steel Furnaces, Britain's Largest. G.W.B. Furnaces to Supply First Two 150 Ton Units for Templeborough Melting Shop ..	103-104	Heat Treatment, Automatic, of Bearing Rollers ..	122
Beryllium (Wrought) Plant, Europe's First. I.C.I. Developments in the New Metals Field ..	27-31	Electric Smelting on Approval. Facilities Provided by Birleco Pilot Plant at Aldridge ..	79-81	Heat Treatment Furnace Installations, Recent ..	247-268
B.I.C.C.'s New Copper Rod Rolling Mill ..	241-245	Electrochemical Attack, The Effect of Composition and Structural Condition on the Resistance of 18-2 Chrome-Nickel Steels to. By G. Newcombe ..	107-112	High Strength Stainless Steel for High Temperature Service ..	25-26
Birthday Honours List ..	246			High Temperature Alloys at 1,050°-1,200° C., The Creep Strength of some. By H. C. Child, A. B. Collier and C. F. West ..	51-54
British Iron and Steel Federation's Annual Report ..	273			High Temperature Service, High Strength Stainless Steel for ..	25-26
Brittle Fracture Problem and the Load Carrying Capacity of Structures. By Dr. L. E. Benson and S. J. Watson ..	145-152			Honours List, Birthday ..	246
Brittleness (Intergranular) of Internally Oxidised Alloys, Some Factors Affecting the. By R. H. Seeborn and J. W. Martin ..	201-204			Hypereutectic Aluminium-Silicon Alloys. A Review of Published Information. By A. P. Bates ..	70-78
Bureau of Analysed Samples, Ltd. ..	286				
C					
Carbine Barrel Forgings, Automatic Hardening and Tempering of ..	32-33				

	Page		Page		Page
<b>I</b>		<b>R</b>		<b>U</b>	
Integron Mild Steel Tubing for Heat Exchangers in Nuclear Power Stations, Some Characteristics of. By F. E. Asbury and L. H. Toft . . . . .	193-200	Pressures, Surface Conformation of Metals Under High Nominal Contact. By L. H. Butler . .	167-174	Tin Coating Grain Size of Electrotinplate and Flow-Brightening Conditions, A Preliminary Study of the Relationship Between. By C. J. Thwaites . . . . .	113-121
Intergranular Brittleness of Internally Oxidised Alloys, Some Factors Affecting the. By R. H. Seeborn and J. W. Martin . . . . .	201-204	Protective Coatings (The Effect of) on the Properties of Ferritic Steel at 650° C. By K. W. Mitchell, H. King and E. A. Brandes . . . . .	15-23	Tonnage Oxygen for Steelworks, More . . . . .	104
Internal Oxidation, The Effect of, on Some Properties of Copper Alloy Sintered Compacts. By R. H. Seeborn and J. W. Martin . . . . .	163-166	Pump Manufacturer, New Casting Dressing Shop for . . . .	105	Trade Effluent (The Treatment of) at Wilmot-Breeden, Ltd., Bridgwater. By K. G. Robinson . . . . .	3-5
Internally Oxidised Alloys, Some Factors Affecting the Intergranular Brittleness of. By R. H. Seeborn and J. W. Martin . . . . .	201-204			Tube and Valve (Electronic) Manufacture, Interesting Uses of Gas at Mullard Plants . .	153-156
Iron, Direct Reduction of . .	132			Tubing (Integron Mild Steel) for Heat Exchangers in Nuclear Power Stations, Some Characteristics of. By F. E. Asbury and L. H. Toft . . . . .	193-200
<b>J</b>					
Joining Aluminium,—Recent Advances in. By G. W. Eldridge . . . . .	55-60	<b>S</b>		<b>W</b>	
<b>L</b>		Scanning Microanalysis (X-Ray), The Application of, to Some Metallurgical Problems. By Dr. D. A. Melford and Dr. P. Duncumb . . . . .	205-212	Welding Problems Overcome. Aluminium Bronze Fabrications . . . . .	83-84
Load Carrying Capacity of Structures, The Brittle Fracture Problem and the. By Dr. L. E. Benson and S. J. Watson . . . . .	145-152	Sendzimir Mill for Cold Rolling Aluminium Strip. Million Pound Installation at Birmingham's Woodgate Works . .	213-216	Wrought Beryllium Plant, Europe's First. I.C.I. Developments in the New Metals Field . . . . .	27-31
Low-Temperature Apparatus, Mobile. By S. S. Chang and J. D. Isdale . . . . .	6-8	Sheffield Smelting Co., Ltd., Bicentenary . . . . .	276		
<b>M</b>		Silicon-Aluminium Alloys, Hypereutectic. A Review of Published Information. By A. P. Bates . . . . .	70-78	<b>X</b>	
Magnesium Association in the U.K. Joint Meeting with the Magnesium Industry Council . . . . .	272-273	Sintered Compacts (Copper Alloy), The Effect of Internal Oxidation on Some Properties of. By R. H. Seeborn and J. W. Martin . . . . .	163-166	X-Ray Scanning Microanalysis, The Application of, to Some Metallurgical Problems. By Dr. D. A. Melford and Dr. P. Duncumb . . . . .	205-212
Mechanised Foundry in North Wales . . . . .	269-271	Sintered Metals (Porous), Oil Circulation in. Note on Rate of Absorption. By Dr. J. Heuberger . . . . .	204	<b>Z</b>	
Metallurgical Problems, The Application of X-Ray Scanning Microanalysis to Some. By Dr. D. A. Melford and Dr. P. Duncumb . . . . .	205-212	Sintering under Glass. By D. Yarnon and M. Argyle . . .	239-240	Zirconia (Old) and Zirconium (New). By M. Schofield . .	161-162, 166
Mild Steel Tubing (Integron) for Heat Exchangers in Nuclear Power Stations, Some Characteristics of. By F. E. Asbury and L. H. Toft . . . . .	193-200	Slab and Copper Billet Production, Continuous Casting Machine for . . . . .	101-102		
Mobile Low-Temperature Apparatus. By Dr. S. S. Chang and J. D. Isdale . . . . .	6-8	Smelting (Electric) on Approval. Facilities Provided by Birlefo Pilot Plant at Aldridge . . .	79-81	<b>CORRESPONDENCE</b>	
<b>N</b>		Stainless Steel (High Strength) for High Temperature Service Steel Furnaces (Electric Arc), Britain's Largest . . . . .	103-104	"Hump Back Furnaces." J. E. Oram . . . . .	47
National Physical Laboratory's Annual Report . . . . .	274	Steelworks, More Tonnage Oxygen for . . . . .	104	"Volumetric Determination of Magnesium in Aluminium Alloys." R. C. Jackson, W. Stross and L. H. Wadsworth . .	174
Non-Ferrous Research Progress. Research Association's Annual Report . . . . .	237-238	Structural Condition and Composition, The Effect of, on the Resistance of 18-2 Chrome-Nickel Steels to Electrochemical Attack . . . . .	107-112		
Nuclear Power Stations, Some Characteristics of Integron Mild Steel Tubing for Heat Exchangers in. By F. E. Asbury and L. H. Toft . . . .	193-200	Structures, The Brittle Fracture Problem and the Load Carrying Capacity of. By Dr. L. E. Benson and S. J. Watson . .	145-152	<b>CURRENT LITERATURE</b>	
<b>O</b>		Surface Conformation of Metals Under High Nominal Contact Pressures. By L. H. Butler . .	167-174	<b>Reviews</b>

# RECENT DEVELOPMENTS IN MATERIALS, TOOLS AND EQUIPMENT

Air Blast Tunnel Burners. Barlow-Whitney, Ltd.	221
Aluminium Foil Wound Transformer. Ashton-Young Engineering Development Co., Ltd.	180
Ammonia Dissociators, High Temperature. Gas Atmospheres Division, The Incandescent Heat Co., Ltd.	40
Balance, General Purpose. Griffin & George, Ltd.	91
Bellows Type Flowmeter. Honeywell Controls, Ltd.	179
Centreless Grinding Dust Control. Arthur Scrivener, Ltd.	135
Chrome Neutraliser. W. Canning & Co., Ltd.	40
Dust Filter, Automatic. Keith Blackman, Ltd.	40
Electric Drying Equipment. G.W.B. Furnaces, Ltd.	180
Electric Motors. The English Electric Co. Ltd.	182
Electric Valve Actuator. Honeywell Controls, Ltd.	39-40
Electron Diffractograph KD. 3. Trüb Täuber & Co., Ltd. Sole Agents in G.B.: H. Tinsley & Co., Ltd.	181
Flexible High-Speed Hacksaw Blades. J. Stead & Co., Ltd.	136
Fused Quartz. Hanovia Lamps Division, Engelhard Industries, Ltd.	222
Gravity Die Casting Machine. Foundry Division, Electric Resistance Furnace Co., Ltd.	90
High Temperature Insulating Brick. Ipsen Industries, Inc.	279
High Temperature Sintering Furnace. Royce Electric Furnaces, Ltd.	89
Holmes-Retroflux Bag Filters. Gas Cleaning Division, W. C. Holmes & Co., Ltd.	181
Indicating Temperature Controller. Honeywell Controls, Ltd.	182
Induction Heater. Pye, Ltd.	179-180
Lightweight Welding Blowpipe. British Oxygen Gases, Ltd.	89-90
Low-Pressure Enamel Spraying. Alfred Bullows & Sons, Ltd.	91
Mercer-Saxi Tension Meter. Thomas Mercer, Ltd.	91-92
Motor, New Design of. Associated Electrical Industries, Ltd. Motor and Control Gear Division.	180
Multiplane Diffractometer. Seton Creaghe Engineering, Ltd.	280
Packaged Oil-Gas Plants. The Incandescent Heat Co., Ltd.	135
Photoelectric Temperature Controller. Radiovisor Parent, Ltd.	92
Polishing and Deburring. Hans Getiker, Metallwaren und Apparatefabrik.	136
Polythene Buchner Funnels. Goodburn Plastics, Ltd.	90-91

Portable Electric Mould Driers. Electric Resistance Furnace Co., Ltd.	279
Portable Mains-Operated Beta Gauge. Baldwin Industrial Controls, Ltd.	181-182
Portable X-Ray Unit. Pantak, Ltd.	222
Reinforcing Concrete Floors. Causeway Reinforcement, Ltd.	136
Safety Periscope. P. W. Allen & Co.	179
Seal for Hot-Processing Baths. The Pyrene Co., Ltd.	136
Self-Balancing Electronic Temperature Indicator. Fielden Electronics, Ltd.	221
Shell Moulding Equipment. Electric Furnace Co., Ltd.	39
Single-Stage Regulators. British Oxygen Gases, Ltd.	135
Sub-Zero Temperature Control. West Instrument, Ltd.	90
Thermocouple Data Indicator. West Instrument Corporation	182
Transistorised Recorder. Fielden Electronics, Ltd.	92
Ultrasonic Cleaner for Laboratory Use. Ultrasonics, Ltd.	92
Ultrasonic Degreasing Plants. Imperial Chemical Industries Ltd.	221-222
Welding Meter. The English Electric Co. Ltd.	279-280

## LABORATORY METHODS

Analysis of Extracted Residues by an X-Ray Fluorescent Method. By Dr. H. Hughes and L. Gwilliam	231-234
Analysis of Nickel. Part II.—The Application of a Spectrographic Solution Technique to the Analysis of Nickel. By G. P. Mitchell and G. Orme	185-190
Antimony, Titrimetric Determination of. By Mrs. M. R. Thompson	283-285
Autographic Extensometer. Portable Creep-Testing Unit with. By C. Wheatley and R. Grosvenor	225-230
Carbon and Sulphur in Steel, The Simultaneous Determination of. By C. E. A. Shanahan and R. H. Jenkins	43-47
Creep-Testing Unit (Portable) with Autographic Extensometer. By C. Wheatley and R. Grosvenor	225-230
Electropolishing Cell, A Simple. By M. K. Asundi and K. Tangri	139-140
Extensometer (Autographic). Portable Creep-Testing Unit with. By C. Wheatley and R. Grosvenor	225-230
Extracted Residues, Analysis of, by an X-Ray Fluorescent Method. By Dr. H. Hughes and L. Gwilliam	231-234
Fluorescent Method (X-Ray). Analysis of Extracted Residues by. By Dr. H. Hughes and L. Gwilliam	231-234
Furnace (A Laboratory High-Vacuum) for use at Temperatures up to 1,500° C. By G. T. Poyner	48
High-Vacuum Furnace (Laboratory) for use at Temperatures up to 1,500° C. By G. T. Poyner	48
Laboratory High-Vacuum Furnace for use at Temperatures up to 1,500° C. By G. T. Poyner	48

Metallic Thermocouples for the Measurement of Temperatures above 1,600° C.	141-142
Metallography (Non-Destructive) of Tin and its Alloys. By Dr. P. A. Jacquet	93-97
Nickel, The Analysis of. Part II.—The Application of a Spectrographic Solution Technique to the Analysis of Nickel. By G. P. Mitchell and G. Orme	185-190
Non-Destructive Metallography of Tin and its Alloys. By Dr. P. A. Jacquet	93-97
Portable Creep-Testing Unit with Autographic Extensometer. By C. Wheatley and R. Grosvenor	225-230
Residues (Extracted), Analysis of, by an X-Ray Fluorescent Method. By Dr. H. Hughes and L. Gwilliam	231-234
Simultaneous Determination of Carbon and Sulphur in Steel, The. By C. E. A. Shanahan and R. H. Jenkins	43-47
Spectrographic Solution Technique, The Application of a, to the Analysis of Nickel. By G. P. Mitchell and G. Orme	185-190
Steel, The Simultaneous Determination of Carbon and Sulphur in. By C. E. A. Shanahan and R. H. Jenkins	43-47
Sulphur and Carbon in Steel, The Simultaneous Determination of. By C. E. A. Shanahan and R. H. Jenkins	43-47
Thermocouples (Metallic) for the Measurement of Temperatures above 1,600° C.	141-142
Tin and its Alloys, The Non-Destructive Metallography of. By Dr. P. A. Jacquet	93-97
Titrimetric Determination of Antimony. By Mrs. M. R. Thompson	283-285
X-Ray Fluorescent Method, Analysis of Extracted Residues by an. By Dr. H. Hughes and L. Gwilliam	231-234

## NEWS AND ANNOUNCEMENTS

Abstract and Book Title Index	
Card Service. Iron and Steel Institute	36-37
Acme-Efco, Ltd.	236
A.E.I. Integration	97
A.L.A.R.S. Annual Meeting	178
Albert Mann Engineering	200
Alcan Smelter Expansion	174
Aluminium Development Association's Director-General	277
Analysis Equipment for Mond Nickel Co. Ltd.	285
Analytical Equipment for Canada	142
Aluminium Rolling Mill	121
Bar Mill Modernisation	98
Birthday Honours List	246
B.I.S.R.A.—Visit of Lord Hailsham	178
Borated Graphite at Dounreay	34
British Metal Sinterings Association	142
Chromium Plating	230
Coal Gasification Plant Contract	31
Consultants for Indian Foundry. F. H. Lloyd & Co., Ltd.	177
Continuous Casting Agreement	37
Continuous Casting of Steel Slabs	97
Copper in Building	277
Corrosion in Gas Plant Symposium	219
Corrosion Science Society	35
Curtiss-Wright and Kelvin Hughes Agreement	36

## LEADERS

Steelmaking: The Impact of Oxygen .. . . .	233-234
The European Coal Situation .. . . .	1-2
The First Twenty-five Years .. . . .	83-84
The Small Exporter .. . . .	131-132
Three Hundred Years .. . . .	51-52
Welding in Russia .. . . .	181-182

## ARTICLES

## A

Accident Prevention . . . . .	256
"Active Iron," Investigations on. Part II: Techniques Used in Studying Reactivity. By Dr. G. V. L. N. Murty and T. R. Ramaswami . . . . .	207-209
Aircraft, Stainless Steel Supersonic. Builder and Steelmaker Co-operate . . . . .	110-114
Alcan's Rogerstone Plant, Developments at . . . . .	201-206
Aluminium Coatings, The Protection of Iron and Steel by. By D. R. Andrews. . . . .	153-158
Aluminium, Effect of, on Density of Electrical Steels. By R. J. Bendure . . . . .	58-60
Aluminium Foil for Transformer Windings; The Advantages of. By L. W. Swann. . . . .	265-266
Aluminium in Railway Rolling Stock. Strasbourg International Exhibition . . . . .	7-10
Aluminium in the "Oriana" . . . . .	268
Aluminium Wire, Twin Chamber Electric Batch Furnaces for Heat Treating . . . . .	115-116
Annealing Commercially Pure Titanium. By Dr. M. A. H. Howes . . . . .	95-100
Arc Furnaces, Automatic Control of . . . . .	10
Austenitic Manganese Steels, New . . . . .	210
Automatic Control of Arc Furnaces. . . . .	10
Automatic Forging. Progress of B.I.S.R.A. Research Project. . . . .	108-109
Automatic Gauge Control System for Cold Rolled Metal Strip . . . . .	143
Automation in the Steel Industry . . . . .	260

## 14

Batch Furnaces (Twin Chamber Electric) for Heat Treating Aluminium Wire .....	115-116
Benson Boiler, Britain's First. New Margam Power Plant ..	3-7
Billets (Hot Steel), X-Ray Inspection of, During Rolling. By W. J. Oosterkamp, J. Proper and M. C. Teves ..	257-260
B.I.S.R.A. Research Project. Towards Automatic Forging ..	108-109
Boron, The Fabrication of, by Powder Metallurgical Techniques. By P. Best and S. R. Twigg .....	146-152
British Steel Castings Research Association. Open Days at Sheffield Research Station ..	11-14, 20

## c

Carburising, High Temperature. By T. W. Ruffle . . . . .	183-186
Cast Iron, The Influence of Inoculation on the Number of Manganese Sulphide Particles in. By J. H. Gittus . . . . .	69-72

	<i>Page</i>
Casting Variables Affecting the Machinability of Grey Iron. By E. A. Loria . . . . .	103-107
Cast Nickel-Molybdenum-Iron Alloys. The Corrosion Resis- tance of. By G. N. Flint . .	195-200
Coil Spring (Hot Formed) Manu- facture. By R. Haynes . .	21-28
Cold Forging. British Plant on Show at Hanover Machine Tool Exhibition . . . . .	161-164
Cold Work, The Effect of, on the Fatigue Properties of Two Steels. By N. E. Frost . .	85-90
Constitution and Physical Prop- erties of Liquid Slags. By Dr. B. T. Bradbury and Dr. D. J. Williams . . . . .	235-240
Copper Wire. Vacuum Annealing of . . . . .	206
Corrosion and Design. . . . .	160
Corrosion Resistance of Cast Nickel-Molybdenum-Iron Alloys. By G. N. Flint . .	195-200
Cracking (Thermal) Test for Steels and Alloys. By M. Riddihough . . . . .	53-55

## D

Density of Electrical Steels, Effect of Aluminium on. By R. J. Bendure . . . . .	58-60
Dorman Long Development Pro- gramme . . . . .	186
Drop Forging Industry, Forming Moulds for the . . . . .	60

## E

Electrical Steels, Effect of Aluminum on Density of . . . By R. J. Bendure . . . . .	58-60
Electric Batch Furnaces (Twin Chamber) for Heat Treating Aluminum Wire . . . . .	115-116
Electron Beam Melting Plant, New. Discharge Difficulties Overcome by Heraeus . . . .	142
Elevated Temperatures, New Ultra High Strength Steels for Use at . . . . .	36
Embrittlement Phenomena in Low-Alloy Steels, The Influence of Trace Elements on. By Dr. J. M. Capus and G. Mayer	133-138

## F

Fatigue Properties of Two Steels, The Effect of Cold Work on the. By N. E. Frost. . . . .	85-90
Filtration, Control of Inter- metallic Particles in Magne- sium Alloys by . . . . .	15-20
Flexible Furnace, Stress Re- lieving by, Treatment of 80 ft. Fabricated Bridge Girders ..	65-68
Foil (Aluminum) for Trans- former Windings, The Advan- tages of. By L. W. Swann ..	265-266
Forging, Automatic. Progress of B.I.S.R.A. Research Project	108-109
Forming (High Speed) of Metal Plates . . . . .	144-145

## G

Gauge Control System, Automatic, for Cold Rolled Metal Strip . . . . .	143
Grey Iron, Casting Variables Affecting the Machinability of. By E. A. Loria. . . . .	103-107

## H

Hanover Machine Tool Exhibition, British Cold Forging Plant Shown at .....	161-164
Heat Treating Aluminium Wire, Twin Chamber Electric Batch Furnaces for .....	115-116
High Speed Forming of Metal Plates. One-Twelfth Scale Tests with Explosives. ....	144-145
High Speed Steel, Prospheroidising of. Change of Cast Structure by Heat Treatment Alone .....	100-102
High Strength Steels for Use at Elevated Temperatures ..	36
High Temperature Carburising. By T. W. Ruffle .....	183-186
Hobbing Press, 5,000 Ton Hydraulic. Forming Moulds for the Drop Forging Industry ..	60
Hot-Formed Coil Spring Manufacture. By R. Haynes ..	21-28
Hot Steel Billets, X-Ray Inspection of, During Rolling. By W. J. Oosterkamp, J. Proper and M. C. Teves ..	257-260
Hydraulic Hobbing Press, 5,000 Ton. Forming Moulds for the Drop Forging Industry ..	60
Hydrogen Ions. New Theory for Rusting of Iron .....	26

I

Inoculation, The Influence of, on the Number of Manganese Sulphide Particles in Cast Iron. By J. H. Gittus . . . . .	69-72
Intermetallic Particles in Magnesium Alloys, Control of by Filtration . . . . .	15-20
Iron and Steel, The Protection of, by Aluminium Coatings. By D. R. Andrews. . . . .	153-158
Iron, New Theory for Rusting of. Role of Hydrogen Ions in Promotion . . . . .	269

## L

Liquefied Petroleum Gas Plant.  
Hereford Installation the  
Largest in the Country . . . 267-268

Liquid Slags, Physical Properties  
and Constitution of. By Dr.  
B. T. Bradbury and Dr. D. J.  
Williams . . . 235-240

Low-Alloy Steels, The Influence  
of Trace Elements on Embrittle-  
ment Phenomena in. By Dr.  
J. M. Capus and G. Mayer . . 133-138

Low Pressure Metallurgy.  
Vacuum as an Inert Atmos-  
phere. By Dr. A. S. Darling  
139-142, 187-191

## M

Machinability of Grey Iron, Casting Variables Affecting the. By E. A. Loria . . . .	103-107
Magnesium Alloys, Control of Intermetallic Particles in, by Filtration . . . . .	15-20
Manganese Austenitic Steels, New . . . . .	210
Manganese Sulphide Particles in Cast Iron, The Influence of Inoculation on the Number of. By J. H. Gittus . . . . .	69-72
Margam Power Plant, New. Britain's First Benson Boiler . .	3-7
Metal Plates, High Speed Form- ing of . . . . .	144-145
Metal Strip Production, Better Gauge in. Further Step in Automatic Control. . . . .	143

#### LABORATORY METHODS

Carbon and Low-Alloy Steels and Cast Irons; A Rapid Accurate Method for the Determination of Silicon in. By C. G. Westwood . . . . .	227-232
Cast Irons and Carbon and Low-Alloy Steels, A Rapid Accurate Method for the Determination of Silicon in. By C. G. Westwood . . . . .	227-232
Cobalt in Copper Alloys, The Spectrophotometric Determination of. By G. Lindley . . . . .	45-49
Cobalt, The Determination of Small Amounts of, in Highly Alloyed Metals. By R. C. Rooney . . . . .	175-180
Copper Alloys, The Spectrophotometric Determination of Cobalt in. By G. Lindley . . . . .	45-49
Creep/Rupture Testing Installation, Accurate Temperature Control for . . . . .	284
Fuel Oils Used in the Steel Industry, Rapid Determination of Sulphur in. By W. Boyes and H. C. Wilkinson . . . . .	129-130
Gases, Detection of Traces of Oxygen in. The Methylene Blue Method. By P. S. Davis . . . . .	49-50
Highly-Alloyed Metals, The Determination of Small Amounts of Cobalt in. By R. C. Rooney . . . . .	175-180
High Temperature Alloys, Spectrophotometric Determination of Titanium in. By N. M. Silverstone and B. B. Bach . . . . .	81-82
Low-Alloy and Carbon Steels and Cast Irons, A Rapid Accurate Method for the Determination of Silicon in. By C. G. Westwood . . . . .	227-232
Methylene Blue Method. Detection of Traces of Oxygen in Gases. By P. S. Davis . . . . .	49-50
Nickel Alloys (Complex), Determination of Zirconium in. By B. B. Bach and J. T. Francis . . . . .	281-283
Oxygen in Gases, Detection of Traces of. The Methylene Blue Method. By P. S. Davis . . . . .	49-50
Silicon in Carbon and Low-Alloy Steels and Cast Irons, A Rapid Accurate Method for the Determination of. By C. G. Westwood . . . . .	227-232
Spectrophotometric Determination of Cobalt in Copper Alloys. By G. Lindley . . . . .	45-49
Spectrophotometric Determination of Titanium in High-Temperature Alloys. By N. M. Silverstone and B. B. Bach . . . . .	81-82
Steel, Determination of Trace Amounts of Tantalum in Steel. By L. Kidman, C. L. Darwent and G. White . . . . .	125-128, 130
Steel Industry, Rapid Determination of Sulphur in Fuel Oils Used in the. By W. B. Boyes and H. C. Wilkinson . . . . .	129-130
Sulphur (Rapid Determination of) in Fuel Oils Used in the Steel Industry. By W. Boyes and H. C. Wilkinson . . . . .	129-130
"Tailor-Made" Vacuum Furnace Installation . . . . .	180
Tantalum in Steel, Determination of Trace Amounts of. By L. Kidman, C. L. Darwent and G. White . . . . .	125-128, 130

Temperature Control (Accurate) for Creep/Rupture Testing Installation . . . . .	284
Titanium, Spectrophotometric Determination of, in High Temperature Alloys. By N. M. Silverstone and B. B. Bach . . . . .	81-82
Trace Amounts of Tantalum in Steel, Determination of. By L. Kidman, C. L. Darwent and G. White . . . . .	125-128, 130
Vacuum Furnace Installation, "Tailor-Made" . . . . .	180
Zirconium in Complex Nickel Alloys, Determination of. By B. B. Bach and J. T. Francis . . . . .	281-283
